Sneyd Building Contractors Ltd

I am very pleased to offer this reference for Sneyd as a testimonial to the excellent service they provided to Sir Graham Balfour School during the completion of our extension in 2010. Throughout the project we were kept informed of each stage and their Site Manager was most proactive in addressing issues as they arose. Their budgetary control was excellent. Apart from the quality of the finish, what impressed me most was the empathy that the construction team had with coping with the conditions placed on them in a busy high school.

Both staff and students are thrilled with their lovely, bright new dining area and very efficient windcatchers. The Governors and Local Authority are extremely pleased with the result and much interest has been prevalent from neighbouring schools. I would strongly recommend Sneyd as Project Managers to other organisations. Their professional approach, outstanding customer care and sound knowledge of the construction industry was evident throughout the project.

Samantha Bevington
Associate Director
